

International Organization for Migration (IOM)
The UN Migration Agency

VACANCY NOTICE

Open to Internal and External Candidates

Position Title : **National Radiology Officer**

Vacancy No. : **IOMRONBO/VN/005/2023**

Duty Station : **Regional Office, Nairobi, Kenya**

Classification : **General Service Staff, Grade NO-C**

Type of Appointment : **One Year Fixed Term Contract (with possibility of extension)**

Estimated Start Date : **As soon as possible**

Closing Date : **March 22, 2023**

The International Organization for Migration (IOM) is the UN Migration Agency. With 174 member states it is committed to the principle that humane and orderly migration benefits migrants and society. Established in 1951 and now active in over 400 field locations worldwide, IOM works with partners, government and civil society to:

1. Assist in meeting the operational challenges of migration and mobility
2. Advance understanding of migration issues
3. Encourage social and economic development through migration; and
4. Uphold the human dignity and well-being of migrants and mobile populations.

IOM is committed to a diverse and inclusive environment. Internal and External candidates are eligible to apply to this vacancy. For the purpose of the vacancy, internal candidates are considered as first-tier candidates.

IOM's Regional Office for the East and Horn of Africa supports and monitors the following countries: Burundi, Djibouti, Eritrea, Ethiopia, Kenya, Rwanda, Somalia, South Sudan, Tanzania and Uganda. Through a team of specialists, the Regional Office supports the development, implementation, monitoring, reporting and evaluation of projects and initiatives undertaken by country offices and regional programmes.

Context:

Under the overall supervision of the Regional Health Assessment Programme Coordinator (RHAPC) and under the direct supervision of the National Radiology Officer the incumbent will be responsible for overseeing and guiding the radiology primary services in the region, managing the x-ray units in Kenya, and performing reporting of chest radiographs of Migrants and Refugees from IOM Migration Health Department's field operations from different

parts of the region under the different health assessment programmes with Quality Assurance/Quality Control and also Administrative roles:

Core Functions / Responsibilities:

In particular he/she will:

1. Supervise the works of radiographers, and radiology support staff in the x-ray units in Kenya, oversee and guide the radiology services in region of Africa and ensure smooth workflow and quality of radiology services.
2. Coordination and communication with the head of the mobile and data processing center in regard to radiology related mobile mission requirements and provide support.
3. Liaise with IOM partners from CDC, Health from Australian and the Canadian health department in regard on radiology related matters, in coordination with the Global tele radiology coordinator.
4. Review and correctly interpret the digital screening chest X-rays (CXRs) using the tele-radiology systems. Identify radiological signs of TB and other incidental findings in accordance with the technical guidelines of the resettlement countries. Compare the current with previous CXR findings and document the change, for cases with follow-up radiographs.
5. Assess quality of chest radiographs to meet optimal diagnostic criteria and the required standards. Request for repeat CXR when the CXR is suboptimal and for additional view when needed. Recommend for further imaging by documenting in the system when needed.
6. Submit the CXR reports to eMedical websites for Canada and Australia cases. Use UKTB global website for reporting cases under UKTB programme in Kenya and the region.
7. Coordinate with and guide the radiographers and the medical clerks on the different country operations X-ray units from the region for optimizing the CXR quality, timely eMedical completion, and delivery of the reports.
8. Provide consultation when the CXR is read by the consultant radiologists and when they have queries during primary reading service, and provide regular internal monitoring of the CXR readings, through double reading of sample of CXRs already read by the consultant primary radiologists and provide regular feedback and advice to maintain the quality of the CXR readings.
9. Review the queries and feedback from Panel physicians on the CXR reports in Kenya and the region. discuss and explain the findings of the CXR images, and if correction is needed revise the reports accordingly.
10. In coordination with the Global Radiology Coordinator, in Manila, get second opinion for clarifying suspicious CXR findings, for addressing any service process concerns in the unit and any related issues

11. Ensure that the radiological reporting process is fraudless. Participate in internal and external image quality and CXR reports quality control (QC) and quality assurance (QA) measures.
12. Provide second opinion confirmatory for CXR reading requests coming from different IOM field operations in the region when needed. And Participate in the process of the IOM global Teleradiology QC control CXR reading and analysis as needed.
13. Prepare radiological quarterly/yearly reports, and other reports produced by the Center for Africa region.
14. Conduct radiology training, image viewing sessions and feedback to consultant radiologists, panel physicians and radiographers in the Center and to the missions in the region to maintain the quality of the radiology service and staff capacity building.
15. Prepare radiology standard operating procedures (SOP) and training materials, coordinate with the IOM Global radiology coordinator in Manila, for any radiology assistant needed and for new advisors from the global Center.
16. Arrange and make sure back up radiologist is available for the service when going on leave. When needed, assist in establishing and training backup local radiologists.
17. Perform other related tasks as may be assigned
